

So advanced, yet so familiar

Advanced features, with room to grow and software you already know how to use

Intuit® QuickBooks® Enterprise Solutions 12.0

What's new in Enterprise Solutions 12.0

- **Inventory Center.** Easily find and locate inventory tasks by accessing your inventory items and reports all in one place with QuickBooks Inventory Center. Now add a notes field or image to each item for quick identification.
- **Serial Number or Lot Tracking.** Conveniently track serial numbers or lot numbers right inside QuickBooks.⁷
 - Enter serial numbers or lots at the time of purchase, transfer, or sale - no extra data entry required for reliable tracking.
 - Recall report lets you track defective lots through assemblies and subassemblies, in stock on shelves, and customer purchases.
- **FIFO Costing.** Now you have the flexibility to work in FIFO costing in addition to average costing for tracking inventory. Easily switch between costing methods whenever you want.^{7,11}
- **Excel Integration Refresh.** Save formatting and save time. Now when you export your QuickBooks reports to Excel, simply refresh your previously saved worksheet and your formats will be applied to the new report. QuickBooks remembers your Excel formats so you can work seamlessly.^{3,12}
- **Calendar View.** See invoices, billing, past transactions and other important tasks coming due or past due in the Calendar view. The improved "to do" list captures more relevant information to help prioritize your tasks.
- **Document Center.** Get organized by scanning and attaching receipts, estimates and other important business documents to your QuickBooks records with drag and drop ease. The new QuickBooks Document Center lets you store files locally on your hard drive. A major advantage at tax time.
- **Memorized Transactions.** Let QuickBooks do your most frequent and time-consuming tasks for you. In addition to automatically executing recurring transactions like weekly and monthly bills and invoices, you can now easily select which transactions to run and which to postpone. Includes new bi-monthly option.
- **Batched Invoicing for Time and Expenses.** Invoice multiple customers for time and expenses in one batch. Create a full set of invoices for customers with the same time and expenses. Just create the invoice and select the customer you want to send it to.
- **More Price Levels.** Now you can add up to 750 different prices in the price level list.
- **Lead Center.** Track and follow up on sales leads in the new QuickBooks Lead Center. Easily import existing leads. When your lead becomes a customer, move the lead's contact information into the Customer Center with one click.
- **Enhanced Inventory Receiving.** Maintain reliable inventory counts even when a single order is delivered in multiple shipments. Apply item receipts or bills for each partial shipment received against the original purchase order.
- **Automatic Price Adjustments.** Set a default percentage or dollar amount markup for your items. When costs change, choose to increase sales prices by your markup amount, or have QuickBooks automatically make the changes for you.
- **Faster Form Completion.** Find items in your sales order based on item detail, including custom fields, directly from your sales order, invoice, or sales receipt. With the click of a button, populate the selected items into the form you're working on.
- **Batched Time Sheets.** Create time sheets for multiple employees or vendors in one batch. Create the time sheet and select the employees or vendors who worked the same hours.
- **Industry Report Templates.** Access industry specific report templates created by other QuickBooks users. Quickly find the report you need, with results displayed by your industry, user rating and report popularity. Click to populate the report with your business data.
- **More Multi-User Activities.** Now complete more activities in multi-user mode:
 - Define custom fields
 - Set a closing date
 - Make deposits
 - Change any list sort order

Create time sheets for multiple employees or vendors in one batch	✓	✓	✓
Works with over 200+ small business applications for more specific needs ¹⁰	✓	✓	✓

1. Requires purchase of additional licenses, sold separately. All users must be on the same version year of QuickBooks to access the same company file. 2. Enterprise Solutions allows you to add up to one million names (e.g. customers, vendors, employees) and up to one million items (e.g. inventory, non-inventory, and service items). Some performance degradation is likely as your lists approach these size thresholds. 3. The Full Service Plan (FSP) is good for 12 months from QuickBooks Enterprise Solutions purchase date or Full Service Plan renewal date. Support hours exclude occasional downtime due to system and server maintenance, company events, observed U.S. holidays and events beyond our control. Intuit reserves the right to limit each telephone contact to one hour and to one incident. Active Full Service Plan members receive new version upgrades when and if released within 12 months of QuickBooks Enterprise Solutions purchase date or Full Service Plan renewal date. Terms, conditions, pricing, service offerings, and availability of the Full Service Plan are subject to change at any time without notice. U.S. only. 4. Some functionality may be limited when running two instances. See www.qbes.com/sysreq for more information. 5. Requires Microsoft Office 2003 or greater, sold separately. Does not work with Microsoft Office Student Edition or Standard Edition. 6. Applications sold separately. 7. Additional fees apply for the Advanced Inventory add-on subscription. Requires QuickBooks Enterprise Solutions 12.0 with an active Full Service Plan and an Internet connection. 8. Internet connection required to activate and receive updates to the Employment Regulations Update Service. Purchase of Employee Organizer includes a twelve-month subscription to the Employment Regulations Update Service. Fees apply after twelve months. Terms, conditions, pricing, features and service offerings are subject to change without notice. 9. Additional fees may apply. Requires certain hardware, Microsoft Server operating systems, Microsoft Windows Server software licenses, and Remote Desktop Services Server Client Access Licenses, sold separately. For multiple remote users, a Remote Desktop Services Client Access License is required for each user. 10. Business software applications sold separately. 11. If the Advanced Inventory add-on subscription lapses, users' data will revert to average cost for all dates. 12. Excel integration requires Excel 2003 and 2007.
